Professional NDI® PTZ Camera

NDI|HX

NDI® HX Camera

The NDI® HX PTZ camera is a lower bandwidth version of NDI with the benefit of low bandwidth requirements. The camera NDI® HX requires a dedicated bandwidth of 4-24 mbps for live streaming.

Core features

- 1080p60 /4K60 FHD video resolution
- 12 - 35X optical zoom
- NDI® 5 integrated
- HDI, HDMI, 3G-SDI, USB 2.0 video interface, line in audio interface
- SRT supported
- Power over Ethernet
- High quality audio
- Smooth and quiet PTZ movement

NDI® | HX3 Camera

The NDI® HX3 offers an optimal solution for users seeking high video quality. It delivers image and video output comparable to a Full NDI® PTZ camera with an added advantage of requiring less bandwidth and more modest network conditions.

Core features

- 1080p60 FHD resolution
- 20X-30X optical zoom
- NDI® |HX3/3G-SDI/HDMI/USB 2.0 available
- SRT supported
- Audio output via HDMI, NDI® |HX3 and 3G-SDI
- Power over Ethernet
- High quality audio
- Program and preview tally

SONO

Telycam First Generation Speakerphone

Highlights

- Smart music mode switching.
- High-capacity battery for extended travel without the need for frequent charging.
- Embedded AI noise cancellation technology.
- Automatic speech direction recognition with DOA (Direction of Arrival) technology.
